This book comprises the Roll for this highly-regarded, but rather neglected, gallantry award with names of recipients, notification of award, list of place names, and arrangement of citations. There are enumerated notes, a book list, an index, illustrations and maps.

All the awards of this medal, for World War One, are collected and fully described in one volume for the first time. It is hoped that this will put the Indian Order of Merit in its rightful high place in the list of gallantry awards. It has been overlooked for too long. Some of the deeds of gallantry recorded are truly remarkable and the men who performed them are worthy of the highest regard.
